Game enhancement with more realistic sound

Table Top Placement

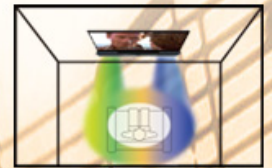

Mounted To The Wall

AcoustaBar™ 40" Home Theater Surround Sound System

All-in-One Home Theater System

AcoustaBar™ All-in-One Home Theater System, built on SRS™ 3D WOW™ technology, features 6 drivers, including dual sub-woofers, delivering up to 520 watts of total power to bring the listening experience of a movie theater to your home. Dialogue clarity is also improved, and the sound field is dramatically expanded both horizontally and vertically.

Made for iPod®

Turn your iPod®, or iTouch® into a room filling surround sound audio system just by placing the iPod® player in the docking unit. AcoustaBar™ system is easily controlled with the supplied remote controller. iPod® functions are available through system remote controller. iPod® player can even be recharged while it is being played or turned off.

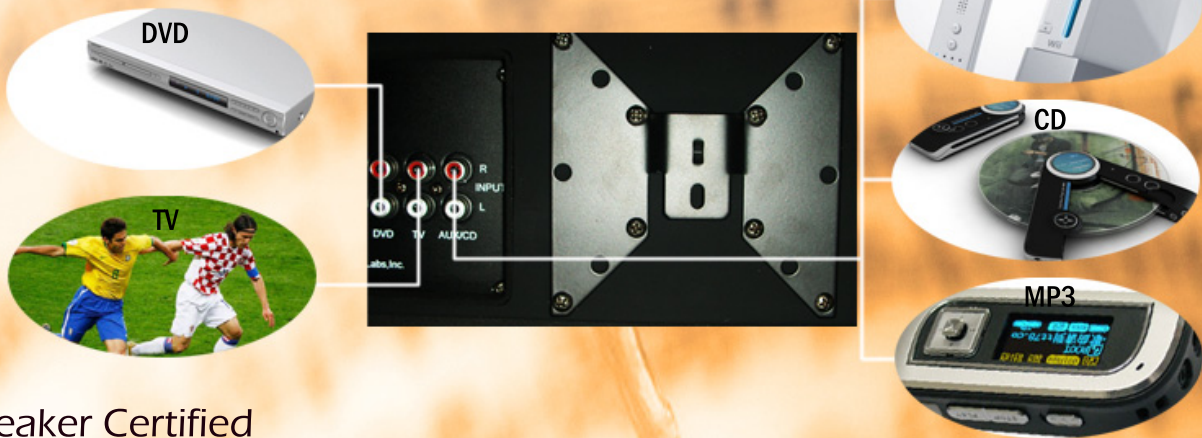

Exclusive patented built-in subwoofer

AcoustaBar™ All-in-One Home Theater System is equipped with our patented Power Bass Compression Engine to enhance low frequency performance. Powerful and impressive bass can be delivered throughout the listening space and rock you along with the music rhythm from head to heel.

Simple Connection

AcoustaBar™ requires just a left and right audio connection and AC power supply.

Green Speaker Certified

Amp	Nominal	Actual Output	Consumption
AcoustaBar™	520watts	520watts	90watts
Conventional	520watts	360 ~ 520watts	240watts
