

DYNAVOX AcoustaBar™

All-in-one Home Theater System

Dynavox AcoustaBar All-in-one home-theater system not only simplifies the hookup, using only two cables but also provides a great way to keep within a reasonable budget. By utilizing the latest patented audio technology from SRS 3D WOW , it is able to deliver enhanced virtual surround sound experience of multiple audio inputs through a two-channel speaker output system. There is no need for extra speakers or cables. This single system unit can be mounted on a wall or just laid on a rack elegantly. It is not only revolutionary but also stylish in design to be well fitted into the home decor. Also take advantage of this superb system to enjoy music from your iPod or Mp3 player. Added bonus: iPod / MP3 remote control included.

DYNAVOX AcoustaBar All-In-One Home Theater System

WOW is a combination of SRS 3D Focus and trubass that creates a thrilling surround sound experience with deep rich bass from any stereo sound sources

All-In-One System has dual channel 3 way array speaker incorporated with SRS technology which make the sound much better than the traditional stereo sound system. Its volume can reach as high as 90dB under 1 watt input, which is superior in efficiency. For the bass, All-In-One System can reproduce frequencies lower than 60HZ, which is just as good as a 10" or 12" subwoofer. All-In-One System is also flexible, no matter **iPod** or **MP3/MP4**, you can enjoy the high quality music which is comparable with any professional AV system.

Allow our All-In-One System to serve your splendiferous music banquet!
